Business Growth & Revenue Systems Speaker

**Helping business owners work less IN their businesses and build systems that grow revenue.**

"I build systems that sell while you sleep"

Keitha makes business automation simple, practical, and profitable. Through relatable examples and real-world scenarios, she shows business owners how to eliminate busywork, create new revenue opportunities, and build businesses that don't depend on them for everything.

## Speaking Topics:

- Can Your Business Survive Two Weeks Without You?
- Stop Chasing Revenue. Build a System That Generates It.
- You're Doing Too Much! What to Automate, Delegate, or Eliminate.
- Your Next Revenue Stream Might Already Be in Your Business.

**Book Keitha**

## Bio:

Keitha McAdams is a firm believer that business owners have better things to do than chase leads, repeat tasks, and babysit their systems. She helps service providers put automation to work so they can spend less time running the business and more time growing it. Keitha builds the systems that turn leads into paying clients automatically, and consistently.

## Who she serves:

I best serve established service businesses that already have leads coming in but lose revenue between "interested" and "paid."

- Consultants selling high-ticket offers
- Professional service firms and small teams
- Owners who are doing follow-up, onboarding, and invoicing by hand
- Businesses that have a CRM but aren't really using it, or have no system at all
- Owners ready to invest in growth, not looking for a quick DIY fix
